

NEW

Cleaning unit Type GW-0, GW-A

Automatic GW-A

Spray gun cleaner GW-O and GW-A with optional undercarriage

GESCHA Cleaning unit GW-0, GW-A for solvent containing paint

- Efficient **cleaning of paint and spray guns, paint soiled parts and tools**
- Powerful suction
- Extraction with automatic on/off switching
- Single workstation ergonomically dimensioned
- Fresh thinner nozzle manual, adjustable amount
- Premium steel unit for wall mounting or optional with undercarriage
- Optional with undercarriage
- Usable for water or solvents
- Suction hose with double premium steel filter
- Cleaning brush with adjustable amount of cleaner
- Timer for automatic cleaning cycle (only GW-A model)

Tip:

We recommend the cleaning unit Type GW-A with additional nozzles and auto/timer cleaning.

Faster cleaning with the thinner supplying brush

Ruckzuck Durchlaufpinsel. Die Lösemittel/Reinigungslösung läuft durch den Pinsel.

Wall mounted unit without undercarriage
